

### Removing Lab Workers

Lab workers can also be removed. They will be placed in queue for EHS to remove. EHS will perform this removal on a weekly basis.

**Confirmation**

Do you wish to remove User,Test from your permit?

### Chemical Inventory Semi-Annual Review Statement

Chemical inventory must be reviewed twice a year (calendar year) and reported to EHS using this feature. The PI or their delegate must complete the “signed” and “Date” fields and select “Submit”. The Last Inventory Review Date will appear below the review statement in the GENERAL section of the PI’s web profile for quick reference.

**Semi-Annual Chemical Review Statement**

I have reviewed my chemical inventory and reported any discrepancies to ehs-labstaff@austin.utexas.edu. I acknowledge this review is required semi-annually.

Signed

Date  ▾

📷 Pictures Available									
-----	-----	Inspection #	Inspection Category	Inspection Date	Date Corrected	Corrected By	Description	CRITICAL ITEM	Location/Lab
<a href="#">Select</a>		6636	CHEM2	03/08/2013			Condition of Chemical Containers	.	
<a href="#">Select</a>		6636	CHEM2	03/08/2013			Cold Flammable Storage	.	
<a href="#">Select</a>		6637	BSL	03/08/2013			Biosafety Cabinet Use	.	

Using the [select](#) feature at the left of each item will open up editing options and additional information. If pictures of the item are present they will be de-noted with the camera icon. Select the camera icon to view the picture.

**Editing Inspection Results Correction Information**

INSPECTION DATE: 03/03/2010      PI: WRB Bollich, Wolfgang

CRITICAL ITEM:       INSPECTOR: Rachel LeBansky

LOCATIONS/LABS: Building    Lab

WEL	1.100
-----	-------

EVALUATION ITEM  
Chemical Segregation

SPECIFIC DETAIL  
Nitric acids was found stored with acetic acid. Nitric acid and acetic acid are incompatible and must be stored separately.

---

**Principal Investigator Response**

DATE CORRECTED: 3/4/2010      RESPONSE DUE DATE: 04/04/2010

CORRECTED BY: Wolfgang Bollich

COMMENTS (OPTIONAL): Relocated Nitric acid to another cabinet.

The PI or delegate will be able to provide responses in the Principal Investigator Response section. The required fields are Date Corrected and Corrected By. Comments are optional but are very helpful to EHS personnel and are encouraged. Responses should be saved by selecting the Save button.

**Principal Investigator Response**

DATE CORRECTED: 3/4/2010      RESPONSE DUE DATE: 04/04/2010

CORRECTED BY: Wolfgang Bollich

COMMENTS (OPTIONAL): Relocated Nitric acid to another cabinet.

EHS will run a weekly report to verify web corrected inspection items. Closed inspection items will be removed from the Open Inspection Results table upon EHS verification.
