Display 10 rows per page.							

Selecting “Reports” will display a lab placard (PDF format) you can print and post at the entrance of your lab.

Contacts 1 and 2 display primary and secondary emergency contacts by lab room. The contacts listed should be very familiar with the hazards and operations in the space and be available to assist emergency responders and safety professionals if contacted.

Emergency contacts can be edited and comments sent to EHS by selecting “Request Change”.

Request Change

EHS will be posting lab placards at the entrance to each lab. The lab placards will display emergency contact information and hazard icons associated with the lab space. When emergency contact and lab hazards change you can request changes to your lab placard using this feature.

LE742 Editing a placard change request.
