Pursuant to the Texas Radiation Control Act and Texas Department of State Health Services (Agency) regulations on radiation, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess and transfer radioactive material listed below; and to use such radioactive material for the purpose(s) and at the place(s) designated below. This license is subject to all applicable rules, regulations and orders of the Agency now or hereafter in effect and to any conditions specified below.

### LICENSEE

| 1. Name | THE UNIVERSITY OF TEXAS AT AUSTIN DELL MEDICAL SCHOOL ATTN STANISLAV SPIRIDONOV MD |
| 2. Address | PO BOX 7729 AUSTIN TX 78713-7729 |

This license is issued in accordance with correspondence dated March 9, 2018.

| 3. License Number | L06949 |
| 4. Expiration Date | July 31, 2028 |
| Amendment Number | 00 |

### Radioisotope

| A. Any radioactive material permitted by 25 TAC §289.256(ff) | A. Any radiopharmaceutical form, except gas | A. As needed | A. Any uptake, dilution and excretion study permitted by 25 TAC §289.256(ff). |
| B. Any radioactive material permitted by 25 TAC §289.256(hh) | B. Any radiopharmaceutical form, except gas | B. As needed | B. Any imaging and localization study permitted by Title 25 TAC §289.256(hh). |
| C. Any radioactive material with atomic number 1 through 83 with a half-life less than 120 days, except as otherwise specified | C. Any radiopharmaceutical form, except gas | C. 600 millicuries | C. Research and education, including animal studies. |

9. Radioactive material shall only be stored and used at:

Site Number: 000
Location: Austin - 1601 Trinity Street (Main Site)
          1701 Trinity Street

10. This license is issued in accordance with Title 25 Texas Administrative Code sections:

a. §289.252(h), “Specific Licenses for Broad Scope Authorization for Multiple Quantities or Types of Radioactive Material for Use in Research and Development”
RADIOACTIVE MATERIAL LICENSE

10. (Continued)

b. §289.256(o), “License for Medical and Veterinary Uses of Radioactive Material with Broad Scope Authorization.”

11. The individual designated to perform the functions of Radiation Safety Officer (RSO) for activities covered by this license is Stanislav Spiridonov, M.D.

12. Radioactive material shall only be used by, or under the supervision of, individuals designated by the Radiation Safety Committee, W. Scott Pennington, MS, CHP, Chairperson. The licensee shall maintain records of individuals designated as users for 3 years after the individual’s last use of radioactive material under the license.

13. The licensee shall not open sealed sources containing radioactive material or remove sources from source holders.

14. Installation or exchange of sealed sources in medical imaging equipment shall be performed only by the device manufacturer or other persons specifically authorized to perform such services by the Agency, the U. S. Nuclear Regulatory Commission (NRC) or another Agreement State.

15. The licensee is authorized to analyze tests for leakage or contamination from sealed sources in accordance with procedures identified in the application July 2, 2018.

16. The use of licensed material in or on humans shall be by an authorized user as defined in 25 TAC §289.256(c).

17. Individuals designated to work as authorized users, as defined in 25 TAC §289.256(c), shall meet the training, experience, and recentness of training criteria established in 25 TAC §289.256, and shall be designated, in writing, by the licensee’s Radiation Safety Committee.

18. Experimental animals administered radioactive materials or their products shall not be used for human consumption.
RADIOACTIVE MATERIAL LICENSE

19. The licensee is authorized to discard radioactive material authorized in Conditions 5, 6, 7 and 8 and listed in 25 TAC §289.202(ggg)(7), whose half-lives do not exceed 300 days, in a Type I municipal solid waste site in accordance with the provisions of 25 TAC §289.202(fff)(4) and procedures identified in the application dated July 2, 2018.

20. Except as specifically provided otherwise by this license, the licensee shall possess and use the radioactive material authorized by this license in accordance with statements, representations, and procedures contained in the following:

Application dated July 2, 2018, and

Title 25 TAC §289 shall prevail over statements contained in the above documents unless such statements are more restrictive than the regulations.

FOR THE DEPARTMENT OF STATE HEALTH SERVICES

Date July 24, 2018

J. Scott Kee, Program Coordinator
Medical and Academic Licensing Program
TO: All Radioactive Material Licensees

FROM: Karl Von Ahn, Manager
Radioactive Materials Licensing
Business Filing and Verification Section

DATE: January 3, 2018

SUBJECT: New License Format

We have made significant changes to the format and wording of the radioactive material licenses. The changes made include updating the agency logo, font type and size and other formatting changes to conform to the Department of State Health Services and the Health and Human Services document guidelines. To better accommodate the new font size, the license is now in landscape format. A watermark has been added as a security feature to make it tamper evident. In addition, we have also updated and revised standard license conditions used on the licenses.

The license conditions for medical licensees have had the most noticeable changes. License conditions 5 and 8 have been amended to authorize use of radioactive material in accordance with the authorizations in rule. For example, a license which formerly authorized “all diagnostic uses of radioactive material” will now authorize “uptake, dilution, and excretion studies” and “imaging and localization studies” in accordance with the corresponding sections of Title 25 Texas Administrative Code Section 289.256. Certain authorizations, such as for positron emitters, technetium-99m aerosol, and technetium-99m for preparation of reagent kits, will no longer appear as individual line items. License condition 12 has been amended to list authorized users alphabetically by last name and the uses by rule reference for which each user is authorized.

Please review the license carefully and contact us with questions at 512-834-6688 ext 2861 or RAMLicensing@dshs.texas.gov.
