

# LASER INJURY GUIDE

IF INJURED BY A LASER, FOLLOW THESE STEPS:

1	Stop all work in the lab
2	Shut down all lasers in the lab (do not resume until LSO approves)
3	<p>Seek Medical Attention as soon as possible.</p> <p>Have a co-worker call for help and give assistance.</p> <ul style="list-style-type: none"><li>• <b>Severe injuries</b> such as total loss of vision, bleeding from the eye, 2<sup>nd</sup> or 3<sup>rd</sup> degree burns to the eye area or face <b>CALL 911</b> to request transport to the nearest hospital emergency room.</li><li>• <b>Exposures not resulting in severe injury</b>, contact the HealthPoint Occupational Health Program to determine your next steps for medical treatment.</li></ul>
4	<b>Do not alter the laser setup</b> (this allows analysis to find the cause of the accident, and to take corrective action to prevent a re-occurrence)
5	Notify the laser user's work lead or supervisor and the UT Austin Laser Safety Officer
